

Laser tag arena equipment checklist

Tick each line before you open. The online version links every item to its product page and our arena guide.

PLAYERS' KITS

- ☐ A blaster for every player you host at once
- ☐ A vest or headband for every player (vests and headbands can be mixed in Alphatag Arena)
- ☐ Spare kits so one damaged kit never cancels a booking
- ☐ Safety bumpers for the blasters

GAME DEVICES

- ☐ At least two first aid kits, one per team base, for respawns
- ☐ Objective devices: digital flags or control points
- ☐ For bigger scenarios: a nuclear case, mines, grenades or targets

CONTROL, SOFTWARE AND STATISTICS

- ☐ An instructor remote to start games and change settings
- ☐ A router for the network the equipment runs on
- ☐ Arena software (free with our equipment) on a PC or tablet
- ☐ Screens in the lobby for live statistics

CHARGING

- ☐ Charging stations or chargers sized for the whole fleet
- ☐ A dry charging and storage area, above freezing, with enough sockets

THE ARENA

- ☐ A layout and zoning plan (or our arena design service)
- ☐ Walls, obstacles and lighting effects
- ☐ A briefing area between the entrance and the arena

PEOPLE AND ROUTINES

- ☐ At least one trained instructor per game
- ☐ A check of every kit before each shift
- ☐ Warranty, service and firmware contacts saved
